6

4	2	5	1	5
6	3	1	4	1
6	1	3	2	5
4	6	5	4	5
2	6	1	3	2
3	2	6	4	3

Name: _____

Sums 2 to 12

Roll & Add

Roll 2 dice. Add the dots. Find the sum and cover it!

Example:  +  = 7

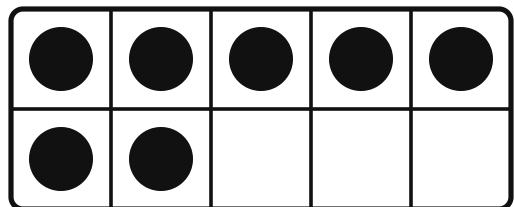

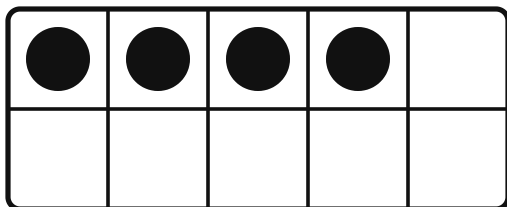

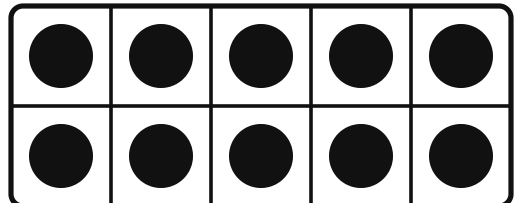

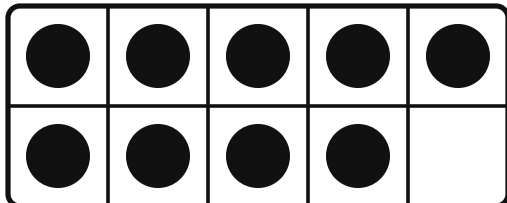

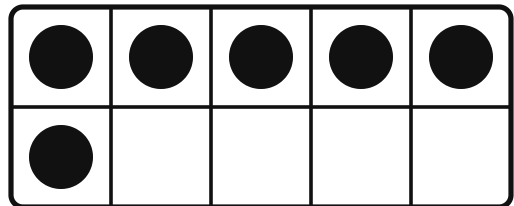

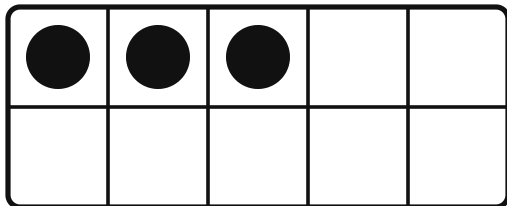

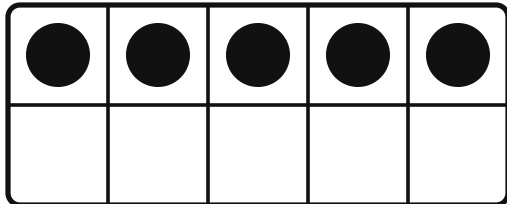

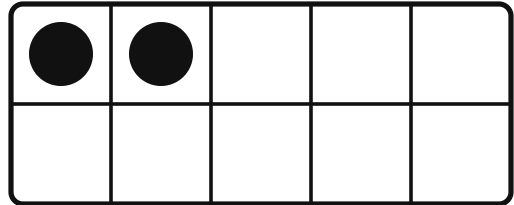

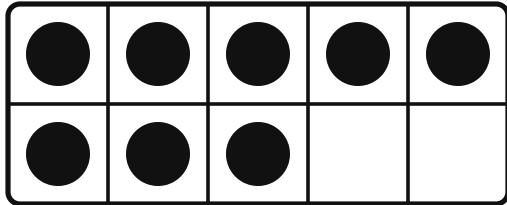

9	5	6	10	2
12	7	10	8	7
4	5	11	9	6
7	7	4	8	9
7	6	3	8	5

Name: _____

Numbers 1 to 10

Ten Frame Cover

Pick a number card. Find the ten frame with that many dots. Cover it!

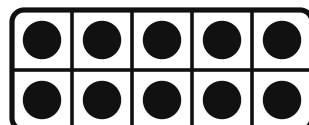

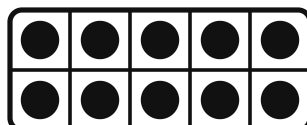

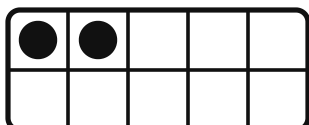

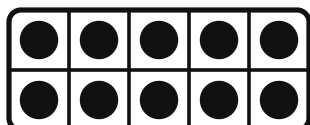

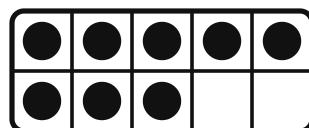

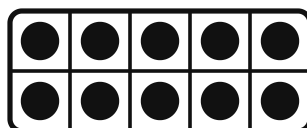

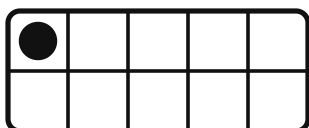

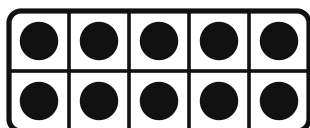

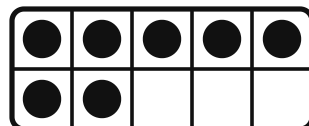

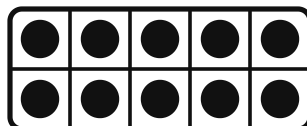

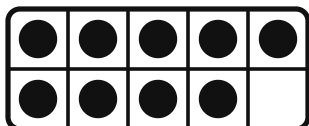

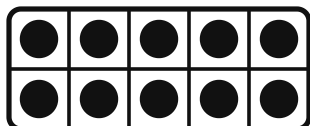

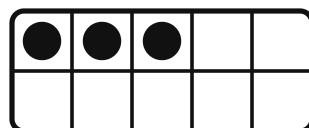

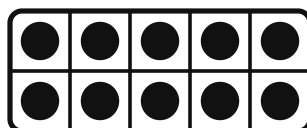

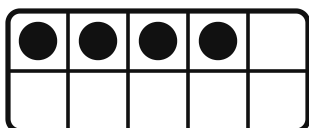

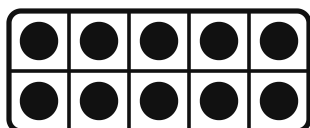

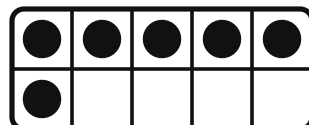

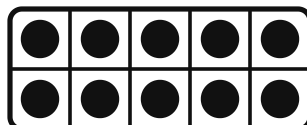

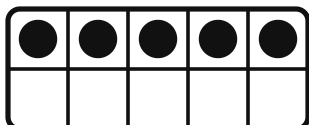

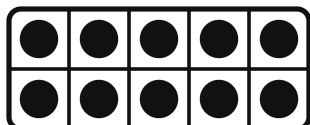

Name: _____

Numbers 11 to 20

Ten Frame Cover

Pick a number card. Find the ten frame with that many dots. Cover it!

Name: _____

Numbers 1 to 20

Number Cards

Cut apart. Mix the cards face down, then pick one each turn.

How to play

The games

- **Roll & Cover 1 to 6:** roll one die, count the dots and cover one matching number. The dice at the top help with counting.
- **Roll & Add 2 to 12:** roll two dice, add the dots and cover the sum. 7 is on the board most often because it is the sum you will roll most.
- **Ten Frame Cover:** pick a number card (1-10 for the first board, 11-20 for the second) and cover the ten frame with that many dots. On the teen board, every number is a full ten and some more.
- **Number Cards:** also good for putting 1-20 in order or playing a matching game.

You need: 1 or 2 dice, crayons or small counters (cereal, buttons, coins), and scissors for the number cards.

1 player: roll (or pick a card) and cover until the board is full. **2 players:** share one board and use 2 colors; if the number is already covered, your turn is over. Most covered wins, or play for 3 in a row.

Make it easier: use cards 1-5 only, or count the dots out loud together. **Make it harder:** on Roll & Add, say the sum before you count the dots. Slip the boards into a sheet protector and play again with a dry-erase marker.

Free for personal and classroom use. Print as many copies as you need for your own children or your own class. Please don't sell or re-post this file. To share it, send friends the download page instead:
